## Average Energy Prices, Atlanta-Sandy Springs-Roswell – January 2018

Gasoline prices averaged \$2.430 a gallon in the Atlanta-Sandy Springs-Roswell area in January 2018, the U.S. Bureau of Labor Statistics reported today. Regional Commissioner Janet S. Rankin noted that area gasoline prices were 17.9 cents higher than last January when they averaged \$2.251 per gallon. Atlanta area households paid an average of 10.9 cents per kilowatt hour (kWh) of electricity in January 2018, compared to the 10.8 cents per kWh paid in January 2017. The average cost of utility (piped) gas at \$1.607 per therm was similar to the \$1.592 per therm spent last year. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect the impact of seasonal influences.)

Atlanta area consumers paid \$2.430 a gallon for gasoline in January 2018, less than the \$2.596 paid nationally. A year earlier, consumers in the Atlanta area paid 6.6 percent less than the national average for a gallon of gasoline. The local price of gasoline has been at least four percent lower than the national average in the month of January in four of the past five years. (See [chart 1.](#))

The 10.9 cents per kWh Atlanta households paid for electricity in January was 19.3 percent lower than the nationwide average of 13.5 cents per kWh. Last January, electricity costs in Atlanta were 19.4 percent less than those paid for the nation. In each of the past five years, prices paid by Atlanta area consumers for electricity were lower than the U.S. average by at least 16.0 percent. (See [chart 2.](#))

Prices paid by Atlanta area consumers for utility (piped) gas, commonly referred to as natural gas, were \$1.607 per therm, or 53.3 percent higher than the national average in January 2018 (\$1.048 per therm). A year earlier, area consumers paid 59.2 percent more per therm for natural gas compared to the nation. In four of the past five years, the per therm cost for natural gas in January for Atlanta households was at least 50 percent more than the U.S. average. (See [chart 3.](#))

The **Atlanta-Sandy Springs-Roswell, Ga., Metropolitan Statistical Area** consists of Barrow, Bartow, Carroll, Cherokee, Clayton, Cobb, Coweta, DeKalb, Douglas, Fayette, Forsyth, Fulton, Gwinnett, Henry, Newton, Paulding, Pickens, Rockdale, Spalding, and Walton Counties in Georgia.

**The Consumer Price Index for February 2018 is scheduled to be released on Tuesday, March 13, 2018.**

### Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, 9 divisions, 2 population size classes, 8 region/size-class cross-classifications, and the 23 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.
